

I want to take the time to enter my two cents worth in regards to the NAB petition. XM Satellite Radio is the absolute best thing that has happened in this country since the invention of sliced bread and butter! Being in the trucking industry, I totally benefit from the current and up-to-date traffic and weather information that they provide. I pay to hear what comes across on XM Satellite Radio and in no way shape, size or form should the National Association of Broadcasters be allowed to dictate to me and the rest of the subscribing listeners what we should be allowed to hear!

I respectfully urge you to reject the NAB's petition (04-160) and to support XM's ability to provide me with what I want to hear as well as deserve.

Thank you!
